Why choose Broadband Fixed Wireless?

Fixed Broadband Wireless offers customers who don't currently have a broadband connection or want to replace an existing DSL, Cable, Satellite, Dial-up or Mobile connection with a newer and faster option for accessing the internet. Many customers are now moving away from the traditional broadband services to a wireless solution that can help reduce their monthly expenses. We offer a low latency solution with high speeds and low monthly prices. We will even beat any non-bundled price you bring us. The service does not require a phone, cable or satellite to work. The outdoor radio becomes your modem and allows you to share the connection with many devices in your home or business (when a router is used). Now you can save money and play XBOX Live or watch Netflix!

Motorola Radio + Fiber Backbone

Our Broadband Fixed Wireless internet operates under the unlicensed spectrums of 900mhz, 2.4Ghz, 5.2Ghz, 5.8Ghz and the licensed 3.65Ghz WiMax Lite spectrum.

The fixed wireless is capable of reaching distances within a 5-10 mile radius of an access point. The service is terminated via PPPoE into our multicarrier fiber internet backbone. Your signal will stay strong and steady providing reliable connectivity even during the harshest of weather conditions such as rain, heavy winds and snow. (Assumes Line of Sight & No obstructions)

Which High Speed Wireless Plan is Right for You?

Speed	Price
256 kbps	\$10 per month
512 kbps	\$15 per month
768 kbps	\$19 per month
1.5 Mbps	\$29 per month
2.0 Mbps	\$39 per month
3.0 Mbps	\$49 per month
5.0 Mbps	\$59 per month

Download speeds listed. Higher Speeds require a custom estimate.

No Credit Checks, No Contracts, No Fair Access Policies. No Monthly Limits. No need for Phone/Cable lines. Service speeds can be upgraded OR downgraded with a call to our office. You can even "pause" your service if you are gone for a month or longer!

Price: \$229 Installed – You Own It

Additional equipment may be required in some cases.

** Basic Install: Mounting of Canopy SM, running wiring from SM to PC and configuration. Includes face-plate, wall box and connector. See fee list for other charges.*
